A SUBJECT INDEX
to Articles, Review Articles, and Notes published in
CAHIERS ELISABETHAINS Numbers 1-40 (1972-91)
(compiled by Angela R. MAGUIN)

The presentation of the entries is as follows: the subject-entries, sub-entries and sub-sub-entries with indentations, followed by the number of the issue and the first and last pages of the article or note. This document does **not** include the indexes to the authors, play reviews and book reviews, which are published every 10th issue, and which we hope may soon be available for SHAKSPEReans on the server, as questions concerning production-history often arise on the screen. All our thanks to Angela MAGUIN, who has faithfully compiled these indexes for us over twenty years. Editors and associate editors of any journal know the anxiety of compiling a usable index. Ours is not perfect, for none is, but it is representative of the great variety of the themes approached by our writers, and as they choose their own index-words, they have impressed their own stamp on the documentary instruments by which their work can be traced by the profession. The whole production of **Cahiers** is also indexed by the **Bibliography** issue of the **Shakespeare Quarterly**.

The index was prepared for publication on SHAKSPER by Luc Borot.
